In Northern Pacific Stocks—Ne Exceptions to Market's Strength.

By Associated Press.

New York, June 1.-The stock marcet made an extraordinary response to the official announcement of the agreement arrived at by conflicting interests in Northern Pacific. Speculation seemd to leap to the conclusion that the only impediment had been thereby removed to a return to the level of prices and the advancing tendency. The market took in all the characteristics of the recent "boom" period and after absorbing all offerings to take profits rose vigorously again in the final dealings to the highest of the day. where it closed. There was no exception to the strength of the market, but some of those stocks which advanced sharply of late were kept up by offerings to realize profits. This was not ably true of southwesterns and and southern railroads. Still a conspicaous absence was dealings in Northern Pacific. Gains in prominent stocks run from 1 to 3 points or over. There was an enormous absorption of Union Pacific convertible bonds, as well as of stocks. The principal activity of bonds was in some speculative issues which generally advanced. U. Roth had been working in a lumber yard here and intended to leave the city tonight. Chief Johnson received a telegram today from Detective Titus of New York, asking him to hold the prisoner until Titus arrives. It is alleged that Miss Giest was carried off by Roth as she was returning to her home from an evening party several weeks ago and it is said he took her to Buffalo and demanded a large sum for her release. It is charged that fail ing to get what he asked, and becoming alarmed at the activity of the detectives, he left the girl in Buffalo and came to Benton Harbor.

Chief Johnson said that papers were found on Roth which definitely connect him with the Cudahy abduction case but he declined to make their contents

Tale of Government Mine Inspector Who Exacted Too Much of the Manager.

"When I was mining in the Transvanl in 1894," said Parker Johnson, of Denver, Col., according to the New York Tribune, "an amusing thing happened. One of the government mining inspectors had made himself obing inspectors had made himself ob-noxious in many ways to the mine JACOB PFAFF, managers. He was one of those characters who are jealous of their own BAKER and CONFECTIONER, dignity and seek to impress their importance on others by taking full advantage of any power that they may have. "One of the mine managers, who was an American, resolved to satisfy his curiosity to the full, and at the same time, if possible, to render the inspector ridiculous and teach him a The following are exact copies of some of his reports to the inspector. The story was too good to keep, and so it later found its way into the columns of the Johannesburg Star. When the inspector read them there it was said by one who was present that he used high Dutch, low Dutch and jack and game Dutch in expressing the feeling that overcame him:

" To the Mining Inspector-Dear Sir: I regret to have to report two triffing accidents. Some of the superstitious natives declare that it is a Divine visitation for sins, the Kaffir being noted for his irreligion. Indeed, I am constrained to conclude, in the face of all the laws of science, that it is a case of effect without cause."

'After receiving these and similar reports and having them published it entered even into the dull brain of the inspector that he had bitten off more than he could easily masticate, and the objectionable order was recalled.'

Facts About the Century.

An industrious calculator has been searching out some interesting facts concerning the new century. He points out that the twentieth century will contain 36,525 days, which lacks but one day of being exactly 5,218 weeks. The middle day of the century will be January 1, 1951. Fifteen out of the hundred years will begin on Wednesday and the same number on Friday. Fourteen will begin on each of the other days of the week .- Chicago Inter Ocean.

A tempt to Rob a Train.

By Associated Press.

St. Paul, Minn., Jane 1.—Passengers arriving today on the Burlington Limited, from Chicago, report an attempt made by a band of robbers to rob the train. Just out of Savannah, Ills., the engine was rapidly bringing the Sainfi engine struck and detonated five track torpedoes. The engineer was rapidly bringing the train to a stop when five armed men sprang from the roadside. The engineer pulled the throttle wide open and started the train so quickly that none of the supposed highwaymen could climb aboard.
